## the need for supper

“ By the time children arrive at their afterschool program, lunch is a distant memory. Their growing bodies need food in between lunch and dinner just to get through the afternoon. Without it, they feel run down, their attention span shortens, their ability to learn diminishes, and they have difficulty fully participating in the afterschool activities. Healthy snacks allow children to be fully engaged in the educational and enrichment activities at the after school program. ”

– Food Research and Action Center

The federally sponsored Supper Meal Program offers a way to serve a free and nutritious after school meal to students. Revolution Foods can help you take advantage of this amazing program
