Revolution Foods Quality Policy

Food Safety and Quality Commitment of Top Management

Food Safety and Quality of our products is our top priority at Revolution Foods. We are committed to creating nutritious food that our customers are proud to serve – food that parents are confident is healthy for their children and families.

Our commitment is to never compromise on the safety, compliance and quality of our products and services. This requires everybody to be engaged, to understand their responsibility in achieving our quality objectives and to be empowered to take action in order to protect our consumers, customers and our brands.

At Revolution Foods, our Quality Policy summarizes the essential elements of our commitment for excellence and includes:

- Fostering a quality culture with the objective of developing, manufacturing and providing products and services that are trusted and preferred by our consumers and deliver on our nutrition and health promise,
- Complying with relevant laws and regulations as well as internal requirements,
- Continuously challenging ourselves to improve the quality management system to guarantee food safety, prevent quality incidents and eliminate defects through the review of quality objectives and results,
- Seeking relationships with suppliers that are committed to sourcing the highest quality ingredients while demonstrating our values and actively supporting our company’s mission, and;
- Encouraging participation and promotion of quality responsibilities amongst all employees through standards, education, training and coaching, supervision and effective communication.

At Revolution Foods, teamwork, engagement, ownership and support by everyone is vital for achieving our quality objectives. In this context, we are committed to providing the required leadership, management and resources to meet our quality objectives. We will ensure that our Quality Policy is reviewed regularly, proudly displayed in our corporate office in Oakland, CA and in all market culinary centers, and is communicated clearly to all employees.

Kristin Groos Richmond
